Spotter guide:

AUTUMN

How many of these autumn signs can you spot when you're out and about?

Royal Botanic Gardens
Kew

Mushrooms

Look low on the ground and high in the trees. Remember not to touch!

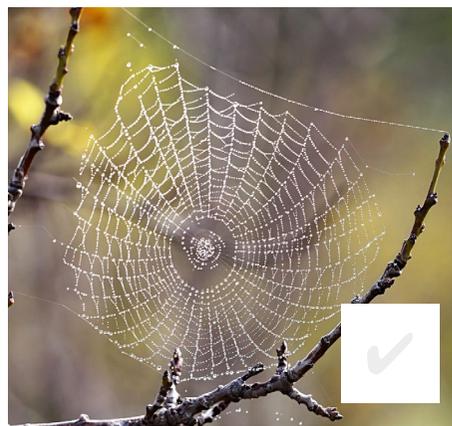

Squirrel

Squirrels love to bury acorns for their winter stores. Can you see one nibbling an acorn or burying a nut?

Autumn leaves

Swish through piles of crunchy autumn leaves. What colours can you see?

Spider's web

Beautiful webs are everywhere. Look out for glistening raindrops if it's been raining.

Conkers

Hunt for shiny, brown conkers but be careful of their spiky cases. Ouch!

Birds

Listen... Can you hear birds singing? Birds like to feast on bright red autumn berries.
